

# DISTANCE EDUCATION: Strategies & Solutions

## Flipped Learning in Remote Times

### The SOFLA Model

The Synchronous Online Flipped Learning Approach is a distance learning model that utilizes the flipped learning approach. It includes structured, interactive, multimodal activities that are both asynchronous and synchronous.

### Four Key Questions

1. What to move to **out-of-class**; what to put into **in-class** – and why?
2. How to maximize **comprehension** and **retention** in out-of-class work?
3. How to maximize **interaction** and **differentiation** in in-class work?
4. How to build in **accountability** and **feedback** in both in-class and out-of-class work?

### Follow Up Activity

1. Do the [Reflection Activity](#)
2. Go to <https://perusall.com/>.
3. Click on Login to create an account.
4. Click “Create or enroll in a course.”
5. Click “I am a student”
6. Enter the code **MARSHALL-9XKXH** to join the webinar group and do the follow up work.

### Pework

- Explicit instruction provided asynchronously
- Structured, interactive, multimodal
- Targeted, embedded questions and activities
- Data downloaded and analyzed to inform instruction

### Mark Your Calendar

Our next Distance Education: Strategies & Solutions webinar will be **October 23, 1-2 Eastern**. Teachers from Literacy Pittsburgh will describe how they created two YouTube channels to deliver instruction, and the benefits they’ve seen.
