

EdTech Maker Space

August-September 2022

In the next TSTM-SkillBlox EdTech Maker Space, we'll be designing reusable activities templates that support the integration of the nine "Skills That Matter".

Adaptability

Problem Solving

Communication

Analyzing Information

Critical thinking

Respecting Differences &

Interpersonal skills

Diversity

Navigating systems *Self-awareness*

Throughout this process, makers will learn more about integrating transferable, 21st century skills in instruction, choosing edtech tools, and designing reusable activities that others can adapt.
